Tufts Environmental Health and Safety (TEHS) promotes health, safety and environmental protection in teaching, research, public service and administrative activities by providing training, advice and other compliance assistance. Tufts EHS provides leadership in developing and supporting high quality programs that allow students, faculty and staff to protect themselves from potential health hazards they encounter at the University. In addition, TEHS staff has the expertise needed to direct efforts toward compliance with health, safety and environmental laws and regulations.

The following is the available Training Materials DVDs and VHS List.
